Mr. Daniel J. Peters  
Ash Grove Cement Company  
Western Region  
3801 East Marginal Way South  
Seattle, Washington 98134

Application For Renewal of Discharge Authorization No. 296

Dear Ms. Peters:

The discharge authorization (DA) for Ashgrove Cement Company expires on July 3, 1996. To continue legally discharging please submit your application for renewal no later than March 14, 1996.

If the volume of your waste has not increased, or the character of your effluent has not changed from that described in your most recent application, and you do not expect such changes to occur within the next five (5) years, your renewal application may consist of only a letter requesting renewal with a statement indicating there has not been a change in operations.

If, however, you have either changed your discharge or expect to within the next five years, please contact me at 689-3032, or call the industrial waste section (689-3000) for a new application.

Metropolitan King County's Ordinance No. 11034-Water Pollution Abatement authorizes a fee for each DA drafted by the Department of Natural Resources. During 1996 the renewal fee for all DAs is \$280. We will bill you separately for the fee following our receipt of your renewal application.

Very truly yours,

  
Douglas A. Hilderbrand  
Industrial Waste Program Officer  
Environmental Programs Division

cc: Mr. Jeff Bauman, Industrial Waste Unit
